

## System Overview

The **Arris** system is comprised of **two unique assemblies**, each designed to provide maximum cost effectiveness and design flexibility for specific types of signs. With both assemblies combined into one comprehensive, uniform system, Arris provides ideal solutions for all interior signage needs, from personnel signs and room identification to directories, ceiling signs and kiosks.

### Modularity Meets Imagination!

Curved-face sign products have saturated the market for years as essentially the only viable solution for displaying a wide range of sign materials, notably digitally printed graphics. Arris provides a well-designed, low-profile alternative that does everything a curved product does and more! Able to accommodate a wide range of sign display materials, Arris is designer-friendly yet offers all the functional benefits of a true modular product.

## The Two Assemblies

**SA Standard Assembly**  
For signs up to 11" wide

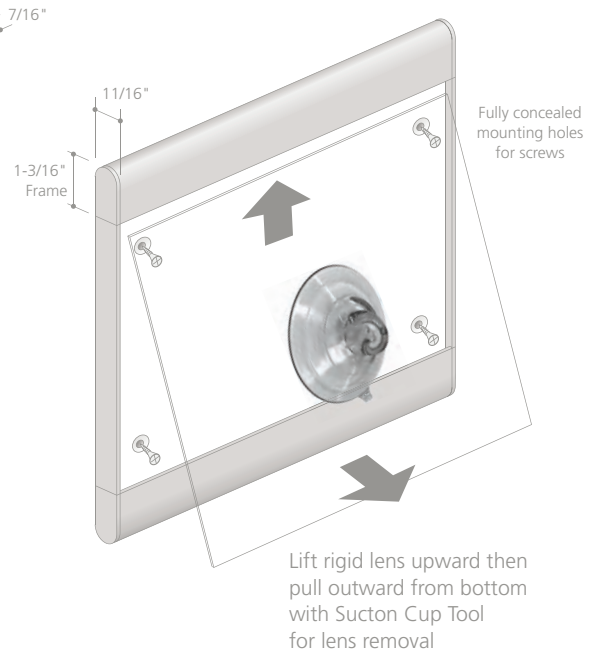

Pull flexible lens directly outward with Suction Cup Tool for lens removal

Add 1-5/16" to insert width for outside frame width.

Add 1/8" to insert height for outside frame height.

**LA Large Assembly**  
For signs greater than 11" wide

Lift rigid lens upward then pull outward from bottom with Suction Cup Tool for lens removal

Add 3/16" to insert width for outside frame width.

Add 2-1/4" to insert height for outside frame height.

## Accents

Shape up your next project with **Arris Accents**, the easiest and most cost-effective way to incorporate decorative backers into your signage design.

Offered in a range of shapes and sizes with virtually limitless possibilities, **Accents** provide a unique touch for your sign system to coordinate with a facility's interior or corporate brand.

**Note:** Accents is not compatible with M-Series.

### How It Works:

.040" Aluminum Connector with Pre-Applied Adhesive Attaches Securely to the Back Side of a Standard Arris Frame.

**Compatible Arris Frame Widths:**  
(4", 6", 8.5" & 11")

1/8" Thick Acrylic or Wood Laminate Accent Shape Attaches to the Aluminum Connector, Flush with the Top (and / or Bottom) of the Arris Frame.

The Finished Arris Accents Assembly Represents the Easiest and Most Cost-Effective Way to Incorporate Decorative Shapes into Your Signage Design
